Annex A – INSTRUCTIONAL METHODOLOGIES AND THEIR APPLICATIONS 4A-1
CHAPTER 1
GENERAL

AIMS

1. The aim of Phase Two is to provide a Sea Cadet with the introductory knowledge and practical experience required to participate in corps activities as a member of a team.

PROGRAM DESIGN

2. Phase Two Program has been designed:
   a. assuming that the majority of second year cadets are between 13 and 14 years of age;
   b. assuming that the majority of cadets have successfully completed Phase One;
   c. using age-appropriate learning strategies;
   d. by providing a programming mix consisting of mandatory and complementary training;
   e. to include training which is experiential and skill-based, with a lesser focus on theoretical knowledge; and
   f. assuming that learning will take place through a combination of programmed periods of instruction, unstructured discussions, teachable moments, and coaching / mentoring opportunities.

3. Each phase is composed of performance objectives (POs) subdivided into enabling objectives (EOs).

PERFORMANCE OBJECTIVES

4. PO numbers are usually made up of three digits:
   a. The first digit indicates the phase (eg, ‘X’ represents Phases One to Four, ‘1’ represents Phase One, ‘2’ represents Phase Two, etc.).
   b. The second and third digits indicate the topic area (eg, ‘00’ represents Positive Social Relations for Youth, ‘01’ represents Citizenship, ‘02’ represents Community Service, etc.).

5. EO numbers are usually made up of six digits (eg, EO M103.01):
   a. The first digit is either an ‘M’, which indicates mandatory training, or a ‘C’, which indicates complementary training.
   b. The second, third and fourth digits indicate the PO as per para 4.
   c. The fifth and sixth digits indicate the specific EO number (eg, EO M103.01 is the first mandatory EO in Phase One leadership).
   d. Some EOs have a seventh digit, which indicates there is a selection of EOs to choose from (eg, EOs MX01.01A, MX01.01B, MX01.01C, etc. indicates corps can choose any one of these EOs to satisfy the requirements of mandatory Citizenship training).

6. Each PO has been developed to contribute directly to the program aim and participant outcomes detailed in CATO 11-03, Cadet Program Mandate. The following are summaries of the POs common to all elements of the CP (allocated POs numbered X01 to X20) and the POs specific to the Phase Two Program (allocated POs numbered 221 to X25):
a. **Citizenship.** PO X01 – Participate in Citizenship Activities. The aim of this PO is to introduce cadets to various aspects of being a good Canadian citizen through a range of fun, interesting and challenging activities.

TRAINING PREREQUISITES

7. To participate in the Phase Two, youths must be members of a Sea Cadet corps, as specified in A-CR-CCP-950/PT-001, Queen’s Regulations and Orders for the Canadian Cadet Organization, Article 4.01.

USE OF THE QSP

8. This QSP shall be used as the primary authority governing the development, implementation, conduct and evaluation of the training and standards to qualify a cadet for Phase Two. This QSP shall also be used by D Cdt & JCR as the primary reference for validation of Phase Two.

9. Phase Two shall be conducted using this QSP as the training control document in conjunction with A-CR-CCP-602/PF-001, Royal Canadian Sea Cadets Phase Two Instructional Guides.
CHAPTER 2
TRAINING MANAGEMENT DETAILS

RESPONSIBLE AGENCY AND TRAINING ESTABLISHMENTS

1. The Managing Authority for the Sea Cadet Phase Training Program is D Cdts & JCR. The conduct of said program is the responsibility of the Regional Cadet Support Units (RCSUs) through authorized Training Establishments (TEs). These TEs include:

   a. Royal Canadian Sea Cadet Corps (RCSCC); and
   b. Technical TEs, such as:
      (1) Cadets Nautical Sites (CNS); and
      (2) Other zone, detachment or regional TEs as authorized by the RCSU Commanding Officer (CO).

TRAINING DETAILS

2. In accordance with CATOs 11-04, Cadet Program Outline and 31-03, Sea Cadet Program Outline, the Phase Training Program is conducted between 1 September and 30 June of each training year through a combination of 30 training sessions and 10 supported training days as detailed in Annex A.

3. Phase Training is divided into two compulsory components that must be completed by all cadets. These components are:
   a. Mandatory Training. Mandatory training is a scheme of activities that is requisite for corps, and in some instances, specialized TEs, to conduct and for cadets to accomplish in order to complete the Phase; and
   b. Complementary Training. Complementary training is a scheme of activities that is requisite for corps, and in some instances specialized TEs, to conduct and for cadets to accomplish in order to complete the Phase. These activities complement mandatory activities and form an integral part of the Phase Program. COs have the discretion to choose activities from a range of possibilities, thus allowing them flexibility to tailor the Phase Program to match the corps’ interests and resources.

4. Period Allocation. Periods are 30 minutes in duration with some periods allocated to be delivered during training days / weekends. A detailed period allocation, including details on training days / weekend, is provided at Annex A, and scheduling guidelines are located at Annex B.

5. Training Days / Weekends.
   a. The planning and conduct of training days is the responsibility of the corps. Day training shall be conducted at the corps parade location or, where suitable facilities do not exist at the corps parade location, within the local community.
   b. The conduct of sail training is the responsibility of Technical TEs (CNS). The planning of these activities is to be done in conjunction with the Area Cadet Detachment / RCSU and CNS.
   c. In accordance with CATO 11-04, Cadet Program Outline, weekend training shall normally be conducted within three hundred kilometres of the corps parade location.
   d. Where support of mandatory or complementary days / weekends is required, requests shall be forwarded to the appropriate RCSU. Refer to CATO 31-03, Sea Cadet Program Outline, and regional orders for amplified information on support available from RCSUs.
e. Training days and weekends shall be structured, unless otherwise specified in the individual Phase QSP, to include cadets from all phases.

6. **Training Capacity.** The training capacity is limited to the ability of the corps to meet supervision requirements in accordance with CATO 13-12, *Supervision of Cadets*, and in some cases, to established quotas.

7. **Training Staff Requirements.**

8. **Technical Specialists.** The number of technical specialists required is influenced by policy documentation specific to the activity (eg, CATOs, Water Safety Orders, Adventure Training Safety Standards, etc.) and by local circumstances. It is recommended that cadet specialist instructors be used in the delivery of specialty training where practical. The technical specialists that could support Phase Two are:

a. Required Specialist Instructors:
   1. Unit Cadet Conflict Management Advisor (UCCMA) to coordinate training delivery and learning reinforcement for PO 100; and
   2. Range Safety Officer (RSO) in support of POs 206 and 211; and

b. Possible Cadet Specialist Instructors:

   4. Boatswain’s Mate Qualified Instructor(s) as available in support of POs 221, 222, 223 and X25; and
   5. Sail and SCOP Instructor(s) in support of PO X24 and X25, as required; and

c. guest speaker(s) as required.

9. **Resource Requirements.** RCSU COs are responsible for ensuring that required equipment and supplies are available. A list of material required to conduct the training is located at Chapter 2, Annex C.

**TRAINING ADMINISTRATION**

10. **Cadet Evaluation.** Details on cadet evaluation are found in Chapter 3.

11. **Reports.** A training file should be maintained on each cadet to record their progress during the training year. The training file should consist, as a minimum, of a Phase Two Qualification Record (Chapter 3, Annex B). Training files are temporary documents which may be disposed of upon migration of the Phase Two Qualification Record to DND 2399, *Cadet Personnel Record*.

**QUALIFICATION**

12. The Phase Two qualification is awarded to cadets upon completion of the requirements specified in Chapter 3.

SCHEDULING GUIDELINES

1. Schedule those activities that are set dates (e.g., Remembrance Day activities, Regionally Directed Activities, TE activities [e.g., sailing], School Breaks).

2. Schedule major and recurring activities (e.g., PO X05 [Physical Activities], CO’s Parades, Annual Ceremonial Review).

3. Schedule the following training activities early in the training year:
   a. PO 100 (Positive Social Relations for Youth),
   b. POs 107, 207, 307, 407 and 507 (General Cadet Knowledge),
   c. POs 303, 403 and 503 (Leadership), and
   d. POs 309 and 409 (Instructional Techniques).

4. Schedule any special considerations, such as:
   a. Schedule EO MX04.02 (Identify Strategies to Improve Participation in Physical Activities and Participate in the Cadet Fitness Assessment) four weeks after EO MX04.01 (Participate in 60 Minutes of Moderate- to Vigorous-Intensity Physical Activity and Track Participation in Physical Activities);
   b. Schedule EO MX24.01 (Prepare for a Sail Weekend) prior to the corps’ Sail Weekend;
   c. For the completion of POs 303, 403, and 503 (Leadership), consider leadership assignment opportunities for Phase Levels Three, Four and Five cadets; leadership appointment opportunities for Phase Levels Four and Five cadets; and leadership project opportunities for Phase Level Five cadets; and
   d. Schedule each Phase Four cadet into the Phase One and Two training schedules in order to complete EO M409.05 (Instruct a 30-Minute Lesson).

5. Schedule the remaining mandatory training (details located in the lesson specifications in Chapter 4).

6. Schedule selected complementary training.

7. Other considerations when developing the annual training schedule include:
   a. the training environment required for each activity:
      (1) some activities will require an outdoor environment which requires consideration for seasonal climate; and
      (2) some activities will require the use of a special facility, such as a gymnasium or sports field; and
   b. the availability of a technical specialist, if required to conduct the activity;

8. Considerations when implementing the training program:
   a. Some theory is required for safety purposes and for introducing new material. However, most material can be taught using practical methods.
b. Training sessions need to be planned in advance to allow instructors adequate time to prepare for the delivery and conduct of training. This includes reviewing lesson specifications and instructional guides, and creating instructional materials as required.

c. Take adequate time to allow cadets to reflect upon and be debriefed on experiential training activities, to include future applications of the experience.
ANNEX C

RESOURCE REQUIREMENTS

Quantities are based on a group of 30 cadets.

The resources required for complementary training and POs X01, X02, X04, X05 and X20 depend on the activities selected by the corps. Refer to A-CR-CCP-602/PF-001, *Royal Canadian Sea Cadets Phase Two Instructional Guides* for detailed lists of resources for each selected activity.

The following is a list of key items all corps require access to for the conduct of training.

CHAPTER 3
CADET EVALUATION

PURPOSE

1. The purpose of this chapter is to outline the specific evaluation requirements for achievement of Phase Two qualification.

LEARNER EVALUATION

2. A-P9-050-000/PT-Z01, Manual of Individual Training and Education, Volume 1 defines learner evaluation as, “the assessment of progress made by participants during an instructional programme (formative evaluation) and of their achievement at the end of the programme (summative evaluation).”

CADET EVALUATION DESIGN AND DEVELOPMENT

3. Cadet evaluation is designed and developed incorporating contemporary professional practices from the fields of education and youth development as well as considering best practices in use within the Canadian Cadet Organizations (CCO).

4. Cadet evaluation is designed and developed so that all cadets are capable of achieving all POs and associated EOs. To motivate cadets to learn, cadet evaluation builds on success and confidence rather than demotivating cadets with failure and defeat.

CP DEVELOPMENTAL PERIODS (DPs)

5. The CP is designed across adolescent DPs adapted to suit the CP target population. Outlined in each DP are specific philosophies and approaches to learning and assessment that influence design, development and conduct of cadet training and assessment.

6. A DP is a time frame, during a cadet’s progression through the CP, in which the cadet participates in training and is provided opportunities to develop desired knowledge, skills and attitudes that support the aim of the CP and contribute to the achievement of the CP outcomes.

7. Progressive training levels, and associated learning objectives, distinguish each DP; ensuring training is relevant, achievable and age-appropriate for the cadet population. DPs and associated training levels are designed to be completed in a sequential manner and are also fluid, which allows a cadet to progress to the next training level or DP while still working on completion of learning objectives from the previous level or DP.

8. The design and development of cadet training and evaluation is based on the basic overview of the DP characteristics located at Chapter 3, Annex A.

CADET ASSESSMENT OF LEARNING

9. The intent of Phase Two cadet evaluation is to measure the extent of cadet participation in the scheduled mandatory and complementary training and make an assessment by comparing the level of participation to the minimum standard required for qualification.

MONITORING CADET PROGRESS

10. Cadets must meet the standard of behaviour and conduct expected from all cadets. The course officer during cadet interviews and personal counselling should adopt a proactive approach towards difficulties.

11. The course officer is encouraged to meet formally and informally with cadets throughout the training year to discuss the cadet’s progress towards Phase Two qualification and to provide feedback on overall
performance. At a minimum, it is expected that the course officer will meet with each cadet at the end of the training year to review the completed Chapter 3, Annex B, Phase Two Qualification Record. Guidelines for conducting cadet interviews are located at Chapter 3, Annex C.

12. Frequent absences from mandatory and complementary training that could result in the cadet not meeting the minimum standard, for Phase Two qualification, must be addressed in accordance with CATO 15-22, Conduct and Discipline – Cadets.

TRAINING COUNSELLING SESSION

13. A training counselling session is used when a cadet is having difficulties progressing and an intervention is required to set goals for corrective action and/or remedial instruction. The Trg O is responsible for conducting training counselling sessions, except in the case of cadet rank promotions for which the CO is responsible. Guidelines for conducting training counselling sessions are located at Annex D and the Training Counselling Session Form is located at Annex D, Appendix 1.

ADDITIONAL ASSESSMENT OF LEARNING ACTIVITIES

14. No additional cadet evaluations (e.g., theory tests, performance checks, etc.) are to be used to determine Phase One qualification eligibility. Therefore, these national standards are not to be supplemented with regional/local standards.

PHASE TWO QUALIFICATION STANDARD

15. The minimum standard for Phase Two qualification is:
   a. Sixty percent attendance in all scheduled mandatory and complementary training once becoming a member of the corps, as calculated by the cadet corps.
   b. Successful completion of each PO as outlined in the Phase One Qualification Record located at Chapter 3, Annex B.

CADETS NOT MEETING THE QUALIFICATION STANDARD

16. Cadets who do not meet the minimum qualification standard shall be given a reasonable opportunity to complete the training missed. If, by the end of the training year, the cadet still has not successfully attained any PO, the corps CO may waive the minimum qualification standard. When waiving any PO requirement, the corps CO shall consider:
   a. the legitimacy of the cadet’s reason for failing to attain the PO;
   b. the cadet’s mandatory and complementary training attendance; and
   c. the cadet’s overall behaviour and performance.

17. Any cadet for whom a waiver has been issued will not be granted the Phase Two Qualification. However, they will progress to Phase Three in the second year of their corps membership. If a CO has decided to not grant a waiver based on attendance/behaviour, a cadet may be held back to repeat Phase Two.

18. Cadets who have been granted a waiver of the minimum qualification standard of Phase Two and have progressed to Phase Three in the third year of their corps membership are expected to achieve the missing Phase Two Qualification PO requirements. To facilitate this, cadets can concurrently receive credit for activities completed in Phase Three as part of also achieving Phase Two.
RECORDING AND REPORTING ACHIEVEMENT

19. The progress of each cadet shall be reported using the Phase Two Qualification Record, Annex B, which is also used to determine successful completion of the Phase Two Qualification. The results shall be recorded on, and placed in, the cadet’s DND 2399, Cadet Personnel Record.

PHASE TWO CERTIFICATE OF QUALIFICATION

20. The Cadet Certificate of Qualification, CF 558 (NSN 7530-21-870-7685), shall be awarded to each cadet upon successful completion of Phase Two.

CADET INTERVIEW GUIDELINES

GENERAL
The purpose of conducting an interview is to discuss the cadet’s expectations, personal goals and learning progress (assessment for learning), and to provide feedback on overall performance.

Meet with the cadet throughout their training to discuss their progress towards achieving the qualification and to revise their action plan.

PRE-INTERVIEW INSTRUCTIONS
Gather the required resources, such as the Cadet Interview Form (Appendix 1), training schedules, pen, paper, etc.

Have the cadets review any support materials so they are able to attend the interview prepared to discuss the specific topic areas, as well as their expectations and personal goals.

Schedule interviews to allow approximately 10-15 minutes per cadet.

CONDUCT OF AN INTERVIEW

Tips for a successful interview:
- Ask questions that will provoke thought; avoid “yes or no” questions.
- Manage time by ensuring the cadet stays on topic.
- Listen and respond in a way that indicates you have heard and understood the cadet. This can be done by paraphrasing their ideas.
- Give the cadet time to respond to your questions.

1. Welcome the cadet.
2. Complete the Cadet Interview Form.
3. Have the cadet sign the Cadet Interview Form.
4. Sign the Cadet Interview Form.

POST-INTERVIEW INSTRUCTIONS
Place a copy of the Cadet Interview Form in the cadet’s training file.

a. An interactive lecture was chosen for TP1, TP2 and TP4 to introduce the cadets to berthing lines and to give an overview of the procedure for berthing and slipping a ship.  
b. Demonstration and performance was chosen for TP3 as it allows the instructor to explain and demonstrate line handling while providing an opportunity for the cadets to practice this skill under supervision.  
c. A practical activity was chosen for TP5 as it is an interactive way to allow cadets to experience the procedure for berthing a ship in a safe and controlled environment. This activity contributes to the development of berthing skills and knowledge in a fun and challenging setting.

### Method(s)

**EXPERIENTIAL LEARNING**

Learning in the Cadet Program is centred on experiential learning. This involves learning knowledge and skills from direct experience. People learn best from their own experiences and can then apply the knowledge and skills in new situations. The four stages of the cycle may be considered and applied to all activities within the Cadet Program, regardless of methodology chosen.

**Stage 1: Concrete Experience:** Cadets have an experience and take time to identify and define what the experience is. Sample activities: direct observations, simulations, field trips, and reading.

**Stage 2: Reflective Observation:** Cadets need to reflect on and examine what they saw, felt and thought while they were having the experience. Sample activities: discussion, journals/logs, and graphs.

**Stage 3: Abstract Conceptualization:** Cadets work to understand and make connections from the experience to new or different situations. Sample activities: interview, discussion, model building, analogies and planning.

**Stage 4: Active Experimentation:** Cadets look ahead to and plan the application of skills and knowledge acquired to future experience. Sample activities include: simulation, fieldwork.

**Note:** The cycle is ongoing as each learning experience builds on another.

### Applications

<tbody>
<tr>
<td>EXPERIENTIAL LEARNING</td>
<td>1. To teach practical skills. 2. To learn how to learn. 3. To teach transferable skills. 4. To teach a process or principle. 5. To teach problem solving.</td>
<td>1. Knowledge is shared and created by collectively by all participants. 2. Everyone is actively involved in the teaching-learning process. 3. Appeals to many learning styles. 4. Student centred.</td>
<td>1. Resource intensive. 2. Requires significant planning, preparation and organization prior to activity. 3. The instructor must master the subject developed. 4. Instructor needs very good pedagogical skills. 5. May not be a good process for learning details. 6. The instructor must be a good facilitator to carry out an effective reflective session in stage 2 and 3 of this method.</td>
</tr>
</tbody>
</table>

### Field Trip

Theoretical knowledge is reinforced through participation in an activity in a real-life setting. Prior planning helps to ensure all pre-training and safety standards are met. Field trip activities are planned and carried out to achieve clear instructional objectives that are understood by the cadets. Examples can include trips to areas of local interest, flying/gliding, hiking or sailing.

<p>| Method(s) | Applications | Advantages | Disadvantages |
| Field Trip | 1. To introduce/illustrate and confirm topics. 2. To allow for familiarization activities. | 1. Immerses cadets in a specific environment. | 1. May require additional staff to ensure adequate supervision. 2. Requires significant planning, preparation and organization prior to activity. 3. May have cost implications. |</p>
<table>
<thead>
<tr>
<th>Method(s)</th>
<th>Applications</th>

</table>
| **GAME-PLAYING**            | 1. To introduce a topic.  
2. To discover concepts and principles.  
3. To review and confirm. | 1. Fun and interesting.  
2. Creates ownership.  
3. Highly participative. | 1. May stratify the group by creating a winner and a loser.  
2. May be difficult in providing instructor feedback. |
|                             | Cadets discuss issues, share knowledge, opinions and feelings about a topic in small groups to meet a specified goal. The instructor’s questioning is flexible and minimal, and aims at encouraging cadets to explore their own experiences and opinions through peer interaction. | 1. Increases cadet interest.  
2. Increases cadet acceptance and commitment.  
3. Utilizes cadet knowledge and experience.  
4. Results in more permanent learning because of the high degree of cadet participation/cognitive involvement. | 1. Requires highly skilled instructors.  
2. Time consuming.  
3. Restricts size of group.  
4. Requires selective group composition. |

**GROUP DISCUSSION**

Games are used with one or more participants to practice skills, apply strategies and enhance teams. It is critical that the game supports learning through the provision of a challenging activity that allows for the skill practice or knowledge confirmation.
